▼ PRECIOUS CARGO

Designed in Brazil by Etel Carmona, the featured set of Maria Preciosa side tables are sold individually, but provide a distinctive addition to any living room setting when styled as a trio. Fabricated from certified woods and topped with lustrous marble, clean lines and smooth surfaces blend to materialize a fresh silhouette. Available in four types of wood, which are finished with natural veneers, the tables are obtainable through Espasso, with storefronts located in New York, Los Angeles and London. espasso.com
