Design Miami 2015

DESIGN / 26 NOV 2015

As the world's design and art communities embark on their annual five-day sojourn to Florida's balmy climes to attend Design Miami (2 - 6 December), we bring you the most exciting happenings from the city's rapidly developing Design District...

Espasso can always be counted on to produce something special. Pitching up in the penthouse of the Shore Club [again](#), the design gallery joined efforts with Rio de Janeiro's Arte Club Jacaranda to bring a special selection of Brazilian art pieces into the mix. Amongst the many highlights in the show, which included new lighting by Claudia Moreira Salles, seating by [Oscar Neimeyer](#) and new artworks by Osklen's Oskar Metsavaht, was a new, sprawling mural by the veteran artist Carlos Vergara (pictured) that made the most of the penthouse's views.
