For the first time in its 40-year history, the architect and designer Atelier Carlos Motta has produced a furniture collection for an international showroom. Teaming up with design gallery and retailer Espasso, the Espasso+Motta range is comprised of a lounge armchair, dining armchair, dining chair, dining table, and this sofa and minimal, angular coffee table. Effortlessly refined, the collection is Brazilian to the core, combining homegrown modernist design with sustainably reclaimed Peroba wood, native to the southern Brazilian rainforest. *Writer: Luke Halls*
